HEY, I'M STEVE!

A Frontend SFCC certified Web Developer building the Frontend of Websites and E-commerce stores. Specialist in CSS, SASS, LESS, HTML, Javascript and responsive web design

A bit about me 😁

I'm a Frontend Web Developer and I love web development and always have from the moment I started learning it. No project is ever the same but my approach is, to be experimental and as performant as possible whilst always being usable and intuitive.
I am always improving my skills in web development and take on any challenge I can to ensure I am always improving. I am a certified Salesforce Commerce Cloud developer which also challenges me to learn the new code bases over releases.

Employment History

Senior Front End Developer
The Commerce Team Global

Oct 2022 - Present

Responsible for Front-End implementations of stores on the Salesforce Commerce Cloud. Leading the design reviews, coding practices. Decision making of tools to be used with applications and ensuring performance of applications is as high as possible.

Senior Front End Developer
DEPT

Jul 2019 - Oct 2022

After BE Excellent became part of DEPT I continued with my role as senior front-end developer. Responsible for implementing designs and building functionality using Salesforce Commerce Cloud, Shopify, Laravel/YAML, React and many other platforms and languages. I also help guide on designs and use my UX expertise with clients. Working on projects in many different areas of business and with different teams within DEPT around the world. I help lead the front end and review code and offer guidance to more junior members.
